## The Mona Lisa Effect

### FOBISIA's Inaugural Student Data Conference and JAWS

Friday 13<sup>th</sup> March 2013

### Bromsgrove International School Thailand

Bromsgrove International School Thailand is delighted to host the first FOBISIA Student Data conference, in our brand new and state-of-the-art Performing Arts Centre here among the rice fields and golfing greens on Bangkok's city limits.

We would like to invite Headteachers, and Senior or Middle Leaders with responsibility for and/or interest in the use of student data, from across all three FOBISIA regions to join us. The event will be equally relevant to those working in Primary or Secondary phases.

#### Date

Friday 13<sup>th</sup> March 2015

#### Venue

Bromsgrove International School Thailand, Suwinthawong, Minburi, Bangkok

#### Costs

The event itself is free. However, there will be a charge of THB1,000 per delegate to cover refreshments, dinner on campus on the Friday evening, and transport to/from the school. This is payable in cash upon arrival; an invoice can be provided upon request in advance.

#### Registration deadline

To enable us fully to plan the event and cater for your own needs and interests as best we can, please register for this event **on or before Friday 30<sup>th</sup> January** at: <http://bit.ly/1ySvXvX>. After numbers are confirmed, you will be contacted with detailed information, at which point you will be asked to provide important details about your own role and priorities.

### Contact details

To register for the event, please complete the following google form: <http://bit.ly/1ySvXvX>. For further information, please contact Matthew Savage, Deputy Headmaster at [msavage@bromsgrove.ac.th](mailto:msavage@bromsgrove.ac.th)

### Recommended hotel

For those delegates travelling from outside Bangkok, we recommend the following hotel: **Siam Piman Eastin Easy** ([www.eastinhotelsresidences.com/eastinsiampiman](http://www.eastinhotelsresidences.com/eastinsiampiman)). Rooms are available at a special price of THB1,450 (bed and breakfast) per night, and transport will be provided to and from the school on the Friday (and also on the Saturday for delegates attending the separate workshop with GL Assessment). Please mention this event when booking.

### Student Data at Bromsgrove

At BIST, we believe passionately in the potential of student-level data to identify and maximise the true potential of every learner, and personalise their learning through what we like to call 'The Mona Lisa Effect'. Our study of the correlations between attitudinal and aptitudinal data, both to diagnose the iceberg beneath each tip of underachievement and to target the wellbeing issues hid behind the mask of adolescence, has effected a paradigm shift in each child's pastoral and academic trajectory at the school, and we would like to share our journey.

### Programme

This event will offer delegates the opportunity to learn from some keynote presentations in the morning, followed by some JAWS-format workshops in the afternoon. Precise topics for the JAWS workshops will be decided after registration has been completed, and will be tailored as much as possible to the needs and priorities of delegates – so please share your preferences on the registration form at <http://bit.ly/1ySvXvX>.

The keynote presentations will include the following:

- **The Mona Lisa Effect** – personalising learning through triangulated aptitudinal, attitudinal and attainment data (Matthew Savage, Deputy Headmaster, Bromsgrove International School Thailand)
- **Life After Levels** – ideas and best practice for a life after National Curriculum levels (David Foster, Director of Studies, Harrow International School Bangkok)
- **What does data mean to us?** – a student perspective on how data can be relevant, useful and engaging to the students themselves (student members of the Student Voice Learning Committee, Bromsgrove International School Thailand)

### Supplementary Workshop (Saturday 14<sup>th</sup> March)

On the following day, **GL Education** will offer a separate workshop, introducing to and exploring with interested schools their suite of assessment and diagnostic tools: a separate flier is attached for this.
